

TRIPLEYE HELPS ITS CLIENTS IN FOSTERING A
GREENER FUTURE THROUGH LIFE CYCLE
ASSESSMENTS AND RESOURCE RECOVERY BY
PUSHING THE BOUNDARIES OF
ENVIRONMENTAL INNOVATION; FOCUSING
ON STREAMLINING IMPACT, STANDARDIZING
GREEN BUILDING PRACTICES AND
CHAMPIONING ENERGY RECOVERY, WHILE
TAKING LEAN APPROACH TO PROJECT
MANAGEMENT

TRIPLEYE VALUES

STANDARDIZATION & MEASURING PORTFOLIO

Measuring of environmental impact

Life cycle improvement and impact assessment: Solutions for IoT Circularity and AI Reporting

OHS environmental aspect measurements: Emissions monitoring, reporting and verification (MRV)

Certification of laboratory equipment, electrical devices and gas appliances

Laboratory equipment calibration and certification

CE Certification and marking

Biomechanical testing service: Medical devices | Implants | Prosthesis | Sterilization packs

Low Voltage Device (LVD) testing service

Testing service for devices burning gaseous fuels

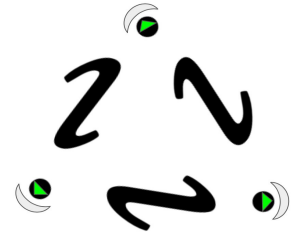

System Certification

Integrated management systems

Climate risk management

Materiality assessment and impact validation

GREEN BUILDINGS PORTFOLIO

Environmental leadership support

Waste Elimination and Environmental **Dialogue:** Programs and systems

Carbon Footprint: **Calculation and verification**

Renewable energy systems: **Waste to Energy (WtE)** and Biomethanation project planning

Energy efficiency: **Energy audit | Energy management service | Productivity enhancement projects | Energy Saving Company (ESCO) business model**

Efficient solar & water technologies

Radiant Barrier Window Insulators

Reliable solar mounting and cleaning systems

Innovative photovoltaic panels, shingles **and** solar inverters

Systems for Rooftop | Single post | **Double post** | Carport | Water: Customized according to the **geographical, geological, and meteorological conditions** of the solar field locations

Wastewater treatment designs

Integrated Plant Control and Building **Information Management Systems**

LEAN PROJECT MANAGEMENT PORTFOLIO

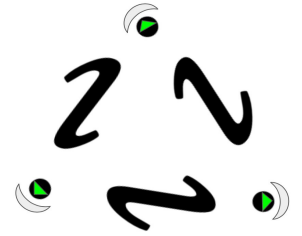

An in-house approach to management development

Visit our website to learn how we **design, develop,**
and deliver solutions by
integrating design thinking and automation to
serve our client's internal customers.

Our **EDME Process®** is about
streamlining workflows

through re-engineering the productive environment;
embedding agility for continuous improvement;
and
executing models with principled delivery
